Digital Literacy Awareness

Equipping students with the tools and knowledge to thrive in a digital world.

WHAT IT IS?

1. Evaluate Information
Critically analyzing sources and distinguishing fake news.

2. Create Content
Writing, designing, and making videos effectively.

3. Understand Tech
Knowing how devices and software work together.

4. Communicate
Clear, professional, and effective online messaging.

5. Stay Ethical
Following rules and respecting others online.
